

# Facebook Login Page on a Smartphone

written by Chandradip News24 | December 9, 2024

Facebook is a popular social media platform that allows users to connect with friends and family. The login page is the first step to accessing your account. It is important to ensure that you are logging in from a secure device and network to protect your privacy and security.

Here are some steps to help you log in to Facebook:

- 1. Open the Facebook app or go to [facebook.com/login/identify](https://facebook.com/login/identify) on a web browser.
- 2. Enter your email address or phone number in the 'Email or phone' field.
- 3. Enter your password in the 'Password' field.
- 4. Tap the 'Log In' button.
- 5. If you have two-factor authentication enabled, you will need to enter a code from your authenticator app.
