

How to Hide Apps on Android Phone

written by Chandradip News24 | January 6, 2025

Android phones are becoming more secure with each update. One of the latest features is the ability to hide apps. This is a great way to keep your most important apps out of sight from anyone who might be looking at your phone. In this article, we will show you how to hide apps on your Android phone. We will cover the steps for both the latest version of Android and older versions. We will also discuss some of the benefits of hiding apps and some things to keep in mind when you do so.

First, you need to make sure your phone is updated to the latest version of Android. You can do this by going to Settings > System > System updates > Check for updates.

1. Open the Settings app.

2. Tap on Settings > Apps > App Lock. This will take you to the App Lock screen.

3. Tap on the toggle switch next to App Lock to turn it on.

4. Tap on Hidden Apps. This will take you to the Hidden Apps screen. You will see a list of all the apps on your phone. Tap on the apps you want to hide. You can also tap on the plus sign (+) to add more apps to the hidden list.

5. Tap on Done.

6. Now, the apps you selected will be hidden from the app drawer. To access them, you will need to use the App Lock screen.
